## 2021 Chevrolet Equinox Diminished Value Case Study

Friday, January 27, 2023.

It is true that the 2021 Chevrolet Equinox is a good compact SUV. Although it doesn't excel in any one area, it is a great SUV. There are roomy seats for five, but some interior materials are lacking, and cargo volume is only average. The base engine gets good fuel economy, but acceleration is subpar. A muscular powertrain is available, but it is less efficient.

The 2021 Equinox comes standard with a 170-horsepower 1.5-liter turbocharged engine. While this powertrain is adequate for everyday driving, its lackluster acceleration may wear you out. A bright spot is the standard six-speed automatic transmission, which shifts smoothly. The gearing, however, is designed to maximize fuel efficiency, so it can slam the gas pedal hard before it downshifts.

# Loss in Value Example

With a base engine and standard front-wheel drive, the Equinox returns 26 mpg in the city and 31 mpg on the highway, which is pretty good for a compact SUV. With all-wheel drive, you get 25 mpg in the city and 30 mpg on the highway when you pair the base engine with it.

It offers straightforward operation, a simple menu structure, and sharp graphics. The rest of the center stack has clearly marked buttons and knobs for adjusting the audio volume and temperature.

## Was Your 2021 Chevrolet Equinox Involved in a Car Crash?

It was a regular day, you were minding your own business and unexpectedly had a car accident. Did you know that a wrecked and repaired car can lose over \$5,465 in value?

Diminished Value Calculator	
Before Accident Cash Value	\$27,325
After Accident Cash Value	\$21,860
<b>Diminished Value</b>	<b>\$5,465</b>
