2022 Jeep Grand Cherokee Diminished Value Case Study

Friday, February 17, 2023

Although the Jeep Grand Cherokee's powertrains aren't its biggest selling point, it handles well, rides comfortably on most road surfaces, and is one of the best off-roaders in its class. This Jeep also features a sophisticated interior that rivals that of some luxury SUVs. The interior seats are comfortable and spacious, and the infotainment system is easy to use.

In addition to the 3.6-liter V-6 and 5.7-liter Hemi, V-8 engines offered in the last generation, Jeep also offers its plug-in-hybrid 4xe powertrain, which introduces electrification to the SUV line. With the base V-6, rear-wheel drive is standard, but with the V-8 or plug-in hybrid engine, all-wheel drive is standard. A variety of all-wheel-drive systems are available, including an electronic limited-slip differential.

Grand Cherokee with 4WD and the V6 engine gets 22 mpg combined, which is above average for a midsize SUV. The V-8 model gets 14 mpg city and 22 mpg highway.

With Apple CarPlay, Android Auto, and SiriusXM satellite radio, the Grand Cherokee's dashboard is accented with either an 8.4- or 10.1-inch touchscreen. Higher-end models can be equipped with a digital gauge cluster, a 10.0-inch head-up display, and a 10.3-inch embedded in the dashboard for the front-seat passenger. In-dash navigation with real-time traffic and weather updates is optional.
