One of the best-selling vehicles on the market, the Toyota RAV4 is likely to be on your shortlist if you're searching for a small SUV. It has a spacious interior, a smooth ride, and easy-to-use controls, making it an SUV you can drive without thinking too much about it.

You can choose from a number of trim levels for the RAV4, including a budget-friendly base model, a top-trim version loaded with all features, and everything in between. There's also the RAV4 Adventure, with tougher exterior styling and a bit more off-road capability, as well as the TRD Off-Road, with all-terrain tires and special suspension tuning.

Loss in Value Example

The RAV4 doesn't impress in performance, unfortunately. The engine is willing around town, and passing and merging are easy. However, if you're in a hurry, you might notice its ultimately modest power delivery. Based on the powertrain and trim level, the RAV4 can achieve 28-30 mpg in combined city/highway driving.

In addition to standard Apple CarPlay and Android Auto smartphone integration, the RAV4's interface combines touchscreens and fixed buttons.

As far as driver-aids are concerned, they are impressive. There is adaptive cruise control that works down to 0 mph, automatic emergency braking, drowsy driver detection, automatic high beams, lane keeping assistance, and Line Tracing Assist, an active steering aid (but not hands-free).

Was Your 2022 Toyota RAV4 Involved in a Car Crash?

It was a regular day, you were minding your own business and unexpectedly had a car accident. Did you know that a wrecked and repaired car can lose over \$8,130 in value?

Diminished Value Calculator	
Before Accident Cash Value	\$40,650
After Accident Cash Value	\$32,520
Diminished Value	\$8,130
